Each statement cycle, the interest rate bonus may change based on the combined balance of the primary or secondary owner's eligible accounts. The combined balance includes the current balance on the last day of the Platinum Money Market statement cycle for each qualifying bank deposit account (consumer checking, savings, money market, certificate of deposit and individual retirement account) and the market value the business day prior to the last day of the statement cycle for eligible Fulton Financial Advisors and/or Fulton Private Bank investment* accounts (Investment accounts are not FDIC insured; no bank guarantee; may lose value). The interest rate bonus may be adjusted at the monthly statement cycle date for the next monthly statement cycle based on the Preferred Pricing tier.
